 - Ensured responsive, accessible, and cross-browser compatible user interfaces.
 - Leveraged AI tools to accelerate UI design, front-end development, and prototyping.
-

Project: Insight

Description:

- Comprehensive platform collecting data from over 50 public sources to provide detailed company and credit analysis.
- Redesigned the entire product to be mobile-first and responsive.
- Implemented all feature requests from customers and provided support on issues.
- Utilized HTML5, CSS3, Bootstrap 5 framework, and Angular to improve user interface and experience
- Owned the end-to-end design-to-development workflow from Figma to production.
- Ensured responsive, accessible, and cross-browser compatible user interfaces.
- Leveraged AI tools to accelerate UI design, front-end development, and prototyping..

Technologies/Tools Used: HTML5, CSS3, Bootstrap 5, Angular, Node.js, Spring Boot (JAVA).

Project: Explore

Description:

- Web-based comparative analytics tool for shortlisting potential clients by comparing Indian companies.
- Enables peer analysis, sectoral research, business group study, and market research.
- Implemented all feature requests and provided customer support.
- Utilized HTML5, CSS3, Bootstrap 5, and Angular for optimal user experience.
- Owned the end-to-end design-to-development workflow from Figma to production.
- Ensured responsive, accessible, and cross-browser compatible user interfaces.
- Leveraged AI tools to accelerate UI design, front-end development, and prototyping.

Technologies/Tools Used: HTML5, CSS3, Bootstrap 5, Angular, Node.js, Spring Boot (JAVA).

Project: Senior Front End Developer

Client: Collabera Technology

Duration: Nov 2021 – March 2022

Responsibilities:

- Developed front-end design components with responsive layouts.
 - Translated Figma designs into responsive HTML, CSS, and JavaScript.
 - Implemented Bootstrap framework for consistent UI/UX.
 - Testing and support for delivered solutions.
-

Project: Senior Front End Developer

Client: Rhomboid Engineering

Duration: Aug 2016 – March 2021

Responsibilities:

- Developed front-end design components with responsive layouts.
 - Built front-end solutions using HTML, CSS (SCSS), JavaScript, and Angular.
 - Implemented modern UI frameworks for 2 products, ensuring seamless interactions.
 - Achieved 30% faster load times through optimization.
-

Project: Web Designer

Client: Alian Software

Duration: Aug 2015 – June 2016

Responsibilities:

- Built 10+ mobile-friendly web pages with HTML, CSS, and JavaScript.
 - Implemented Bootstrap framework enhancing performance and accessibility.
 - Optimized 5+ websites for speed, usability, and mobile responsiveness.
 - Converted 15+ PSD prototypes into fully functional, responsive web pages.
